

At Strathmore North, our vision is that every child is empowered to learn, achieve and be equipped with the knowledge, skills and personal qualities to positively shape the world around them.

Our objective is to provide an inclusive, caring and rigorous learning environment, that engages our students and challenges them to grow academically, socially, emotionally, physically and creatively to their full potential. We prioritise high expectations and authentic relationships which enable learning curiosity and challenge to flourish, increase our students' confidence and energise their commitment to learning.

Our philosophy is underpinned by the belief that all students can learn and that our strategic actions as a school can make a difference. We believe that a strategic focus on our priorities is what makes this difference in achieving positive outcomes for all students.
